

MANZOOR AHMAD

MERN Stack Developer | Full Stack Engineer

+92-343-0510227 | manzoorahmadm293@gmail.com | Mardan, KPK, Pakistan

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate (UET Mardan) with hands-on experience building full-stack applications with the MERN stack. Completed a 3-month full-stack internship and built three independent projects: an offline shop-management desktop app (Electron, React, SQLite), an AR billboard-analytics system, and an e-commerce storefront with admin dashboard. Strong in REST API design, authentication, transactional database design and testing. Seeking an Associate Software Engineer / MERN Stack Developer role in an agile team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, Bootstrap 5, Material UI, JavaScript (ES6+), React.js, Next.js, Recharts

Backend & Desktop: Node.js, Express.js, REST APIs, JWT/OAuth, Electron (secure IPC), electron-builder

Database: MongoDB, Mongoose, PostgreSQL (Supabase), SQLite (better-sqlite3), migrations, transactions

Languages & Tools: JavaScript, TypeScript, Python (basic), C++; Git, GitHub, Postman, Vite, Webpack, Vercel, Netlify

EXPERIENCE

Full Stack Development Intern — Gojins (Career Launchpad Program, UET Mardan)

Jan 2025 – Apr 2025

- Built and maintained features across the MERN stack in a 3-month industry-partnered program, working in an agile team with code reviews and iterative delivery.
- Applied REST API design and database management practices in real project scenarios.

PROJECTS

Mahsood Tyre Manager — Desktop Sales, Inventory & Shop Management System

2026

Electron, React 19, Vite, Material UI, Tailwind CSS v4, SQLite (better-sqlite3)

- Built an offline-first Windows app covering POS, purchases, inventory, customers, suppliers, payments, returns, expenses, reports and a dashboard (revenue, gross profit, receivables, low-stock alerts).
- Designed a 21-table SQLite schema with 5 versioned migrations and triggers; atomic transactions keep invoices, stock ledger and payments consistent, with integer-paise money handling and stale-stock protection.
- Secured the app with Electron sandboxing, strict CSP, sender-validated IPC and scrypt-hashed admin login; added A4 invoice printing/PDF export and verified backup & restore.
- Wrote 40 automated backend and UI test scripts running the real Electron app on temporary databases; configured a Windows installer build.

E-Commerce Storefront & Admin Dashboard

2026

React 19, Vite, Tailwind CSS v4, Material UI, React Router v7, Swiper, Recharts

- Built a responsive 12-route storefront (filters, product zoom, cart, checkout, wishlist, orders, login/OTP/forgot-password) from 25+ reusable components, with shared state via React Context.
- Developed a separate admin dashboard (KPI cards, paginated product table, Recharts monthly-sales chart); deployed on Vercel (e-commerce-gules-omega-84.vercel.app).

Smart Billboards Interaction & Monitoring System (Final Year Project)

2025 – 2026

React Native (Expo), TypeScript, ViroReact (AR), Supabase (PostgreSQL), React, Vite, Mapbox

- Designed a full-stack system letting viewers interact with billboards via AR scanning while advertisers get real-time engagement analytics.
- Built the AR features and a React/Vite admin dashboard; architected the Supabase database with row-level security. Owned the project end-to-end.

Other MERN Stack Work

- Built Node.js/Express/MongoDB (Mongoose) applications with RESTful CRUD APIs and JWT-based role-based access control.

EDUCATION

BSc Computer Science — University of Engineering and Technology (UET) Mardan

2022 – 2026

- CGPA: 3.10 / 4.00. Coursework: Data Structures & Algorithms, OOP, Database Systems, Web Engineering, Software Engineering, Networks, Operating Systems

CERTIFICATIONS

- Backend Development and API Creation — Packt, via Coursera (Dec 2025)
- The Complete JavaScript Course 2024 — Udemy (Jonas Schmedtmann)

APPENDIX: CERTIFICATES

Manzoor Ahmad

Backend Development and API Creation — Packt / Coursera

Certificate of Internship — Full Stack Development, Gojins (UET Mardan Career Launchpad Program)
